訓練人工智能 TRAINING ARTIFICIAL INTELLIGENCE

你玩過「包、剪、揼」嗎？這遊戲能幫助訓練人工智能模型。透過學習大量手勢的圖像，人工智能可以更精準地辨識不同手部形態。例如展品「手勢控制車」可以根據你的手勢發出指令，靈活地操控小車。

Have you ever played 'Rock, Paper, Scissors'? It can be used to train artificial intelligence models. By learning from a large number of gesture images, AI can more accurately recognise different hand shapes. The exhibit 'Gesture-Controlled Vehicle' applies this technology, allowing the car to be flexibly controlled with your hand gestures.

現在，讓我們一起引領小貨車，將機械人送往你心儀的目的地！
Now, let's guide the truck and deliver the robot to your desired destination!
