SCIENCE FICTION

VOYAGE TO THE EDGE OF IMAGINATION

ACTIVITY SHEET **ACTIVITY SHEET**

NAME: _____

CLASS: _____

Science fiction, a genre of speculative fiction, combines scientific concepts with imaginative storytelling. Complete the tasks and create your own tale.

Brainstorming

Below are some common science fiction elements. Record any additional elements that have been introduced in the exhibition.

WHY did it happen?

- Natural crisis?
- Energy crisis?
- Pollution?
- Alien invasion?

WHERE did it take place?

- On Earth?
- Inside a space station?
- In a parallel world?
- Inside a virtual universe?

WHEN did it take place?

- In the past?
- In the future?
- Time travel?

GENRE:

SCIENCE FICTION

WHO was involved?

- Humans?
- Aliens?
- Robots or cyborgs?
- Hybrid creatures?

WHAT scientific concepts and futuristic technologies are included?

- Artificial intelligence?
- Teleportation?
- Artificial organs?
- Interstellar travel?

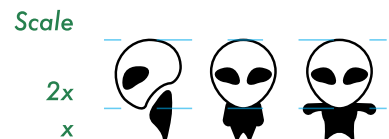

Worldbuilding

Refer to the mind map on page 1. Choose the science fiction elements that capture your interest, and then proceed to complete the story outline.

Story title (Make it fun and attractive!)

Character

(Draw the main characters and list their personalities and special abilities.)

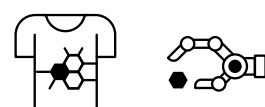

Plot setting

(Think about when, where and why the story happened. What problems will your characters face, and how will these problems be resolved?)

Scientific research

(Study the scientific principles or technologies you want to include in the story. Consider how these scientific elements will impact the plot.)

Storyboarding

Now, write and/or draw the scenes of your science fiction.
